Attention

In some instances the total membership of the districts does not agree with the figure from last year. This is due to the fact that some churches were discontinued and their membership of course subtracted.

In some instances, where either the loss or the gain in membership seems unduly large, this is due to a change in the method of counting, and constitutes a statistical but not an actual gain or loss.

In the totals for paying members the individual membership of those churches who failed to report a paying membership is counted in.

UNITED STEWARDSHIP COUNCIL STATISTICS, ISSUED FOR 1933

A blank was sent to the officials of the communions named below and the statistics are from their replies. Gifts reported are from living donors. Interest and legacies are not included. Budget benevolences are those in the denominational national budget. Denom-

inational benevolences include budget benevolences and such other contributions as are made for denominational missionary and beneficent work outside of the budget. The statistics are for the denominational fiscal years.

The column headed "Total Gifts for All Purposes" in some cases contains gifts from living donors which were given either for non-budget denominational benevolences or for non- and interdenominational benevolences, and there is no method of dividing them.
